What are your greatest concerns and needs at this time?

- Provide participants with an outlet for creative expression and enjoyment
- Help participants deal with their emotions and feelings appropriately
- Improve participant's focus and attention during tasks
- Address challenging behaviors within a group setting
- Improve participant's social skills within a group setting
- Provide a sensory based experience
- Other: _____

Please indicate which type of program(s)* you would prefer

- Clinical Creative Arts Therapy*** **Creative Arts Enrichment* Programming**

Art Modalities (Circle choices) ART MUSIC DANCE DRAMA YOGA

* *Therapy groups* are structured and designed to address individual and group psychosocial goals to elicit change and improvement. Credentialed therapists will provide clinical progress notes for each weekly session. Sessions are generally "process oriented" and do not focus on creative skills per se.

**Enrichment groups* are designed to offer a more flexible and open format for creativity. Participants are encouraged by skilled staff to express themselves and expand their sensory experience through the selected arts modality; developing personal and group awareness.

What programs are you currently using or have used in the past for creative expression?

What are your expectations for a creative arts program?

Will there be aides or assistants available onsite for helping the group?

Yes

No

How many? _____

Would you like Heartsong to provide:
